SUMMARY

Senior Flutter and native Android developer with 6+ years of experience building and shipping production apps for Android and iOS. Currently Tech Lead at 1Way World, leading the mobile apps for RIZA, Bargello and OneWay Fast Food. Delivered 40+ apps for businesses in Egypt, Saudi Arabia, Kuwait, Iraq and Palestine, with 15+ live on Google Play and the App Store, including two apps with 100K+ downloads. Experienced across e-commerce, food delivery, logistics, legal-tech, insurance, health and education. Strong in Bloc/Cubit, Clean Architecture, REST and WebSockets, Firebase, payment gateways, Arabic RTL and end-to-end store releases.

Core stack: Flutter, Dart, Kotlin, Java, Android SDK, Bloc/Cubit, Clean Architecture, Firebase, REST APIs, Git

EXPERIENCE

Tech Lead (Flutter) | 1Way World | Saudi Arabia (Remote) **Jun 2025 - Present**

- Lead the Flutter team building 1Way World's apps: RIZA and Bargello (Saudi Arabia) and OneWay Fast Food (Kuwait).
- **Bargello:** shipped the Saudi launch app of a leading Turkish fragrance brand: Arabic-first WooCommerce store, SAR pricing, Tabby, Tamara and MyFatoorah payments, wallet, and a fix for an iOS blank-screen startup race.
- **OneWay Fast Food:** turned three production Flutter apps (customer, driver, restaurant) into a new brand for Kuwait and added live driver tracking, polygon coverage zones and 60+ golden tests.
- Own the app architecture, coding standards and code reviews; plan and split work across the team and mentor developers.
- Built search by photo for the RIZA catalogue (image similarity with FashionCLIP and FAISS), delivered as a WooCommerce plugin.
- Manage releases, store listings and review compliance on Google Play Console and App Store Connect.

Flutter Developer | DevOra | Iraq (Remote) **Jun 2024 - Jun 2025**

- Built one white-label Flutter e-commerce codebase shipped as several branded stores (Aleefie, Deno Store, StarMart, Irtaah) using flavors and shared design tokens.
- Delivered Ibdaa, a live interactive learning platform (1K+ installs), and Al-Wathiq, a B2B wholesale marketplace.
- Integrated REST APIs, Firebase (Auth, FCM, Crashlytics) and local payment gateways; refactored legacy UI and code for maintainability.

Flutter Developer | EL-BARQ (Delivery IQ) | Iraq (Remote) **Jan 2022 - Jun 2024**

- Built and published the Al Barq merchant app for an Iraqi delivery company (10K+ downloads): bulk order creation from Excel, live order status via Socket.IO and settlement statements.
- Architected a multi-module internal management system for orders, employees and follow-ups.

Flutter Developer (Contract) | StarTime | Saudi Arabia (Remote) **Sep 2021 - Dec 2021**

- Built the official app of the Saudi International Maritime Forum 2022, organised by the Royal Saudi Naval Forces: agenda, speakers, exhibitors, live stream and offline favourites (Bloc, GetX, Firebase, Hive).

Flutter Developer | Global High Tech | Egypt (Hybrid) **Apr 2020 - Jul 2021**

- Built Android and iOS apps in Flutter: new features, REST APIs, Firebase and production bug fixes.

Freelance Flutter Developer | Khamsat & Mostaql | Remote **Jun 2021 - Present**

- Built and published cross-platform apps for 40+ clients across MENA, from requirements to store release.

SELECTED PROJECTS

Bargello | Perfume e-commerce, Saudi Arabia | Turkish brand launch Google Play | Website

Saudi store app of Bargello, a leading Turkish fragrance brand brought to the Gulf by One Way Trading: Arabic-first Flutter app on WooCommerce with Tabby and Tamara instalments, MyFatoorah, wallet and search by photo.

OneWay Fast Food | Food delivery, Kuwait | 3 apps Customer | Driver | Restaurant | App Store

Customer, driver and restaurant Flutter apps under one brand: live driver tracking, coverage zones, restaurant order printing (Sunmi / ESC/POS) and golden tests.

Vanilla | Cosmetics e-commerce, Iraq | 100K+ downloads, 4.4 rating Google Play | App Store
Arabic-first beauty store on WooCommerce: catalogue, offers, wishlist, orders, push notifications (OneSignal) and over-the-air fixes (Shorebird).

Talabatek | Food & grocery delivery, Palestine | 10K+ downloads Google Play | App Store
Four Flutter apps (customer, driver, restaurant and web) with live order tracking and thermal POS printing on restaurant devices.

HamilGuide | Pregnancy tracker, MENA | 100K+ downloads Google Play | App Store
Gregorian and Hijri pregnancy tracking in 5 languages: weekly guide, kick counter, health logs and reminders.

RIZA | Fashion e-commerce, Saudi Arabia Google Play | App Store | GitHub
Multi-category fashion store with multi-currency checkout, wallet and points, coupons and search by photo.

Jahiz | Home-services marketplace, Palestine Google Play | App Store
Customer and provider apps: broadcast requests, competing offers, in-app chat, live job status and price-change approval.

BFI Insurify | Insurance, Egypt Google Play | App Store
Bilingual app to compare car, health and life packages, buy policies, file claims and renew.

Mohami Plus | Legal-tech, Iraq Google Play | Website
Legal assistant app and Flutter web platform: 18 legal services, 28 Arabic contract templates exported to PDF, a directory of 59 courts and a legal dictionary.

LegalPal | Legal-tech, Palestine Google Play | App Store
Platform for lawyers: cases, laws, court decisions and contracts on Android, iOS and a desktop-first Flutter web app from one codebase.

StudyGo | Education, Palestine Google Play | App Store
One app for students, teachers and parents: lesson booking, timed exams and secure payments.

TECHNICAL SKILLS

Mobile: Flutter, Dart, Kotlin, Java, Android SDK, iOS deployment, Material & Cupertino, animations
